Portfolio (selected work): Mustafaabduljabbar.com

Profile

Recently completed an **MSc in Logistics and Operations Management at Cardiff University** (Distinction, 78%). Applied analytical, modelling, and forecasting techniques through a live dissertation supported by **DSV** and **ESG.AI**, alongside delivering data analysis and automation outputs during an internship at the **Office for National Statistics (ONS)**. Now seeking a graduate or entry-level role in operations or supply chain management to apply these skills in industry I'm deeply passionate about.

Education

MSc Logistics and Operations Management – *Cardiff University*   *09/2024 - 09/2025*
Grade: Distinction (**78%**)

Modules included:
- Circular Economy Operations (91%), Lean and Operational Excellence (87%), Operations Management (86%), Digital Supply Chains (85%), Logistics and Its Provision (81%), and ERP Systems (80%) (full transcript available on request).

Honours & Awards:
- Sole **Student Representative** – advocated student interests and acted as liaison with faculty
- **Lean Competency System** (LCS) – Level 1B
- **ERP Simulation Certificate**

BSc Business Management – *Cardiff University*   *09/2021 - 09/2024*
Grade: 2:1 (68%)

Honours & Awards:
- **Cardiff Award** – Student Futures employability award
- **Student Ambassador** – Cardiff University Business School

A Levels – Cardiff High School   *09/2018 - 07/2021*
Grades: Chemistry (A), Physics (B), Business (B)

Relevant Experiences

MSc Dissertation (Live Project), DSV & ESG.AI - Cardiff University   *06/2025 – 09/2025*
- **Analysed corporate sustainability policy frameworks** across the UK, EU, and USA, reviewing seven electronics firms to assess how dematerialisation is reported in practise.
- **Identified a structural governance weakness within the EU CSRD**, demonstrating how non-EU firms can publish sustainability claims without equivalent verification requirements, creating credibility risk in reported data.
- **Designed and implemented a stochastic Life Cycle Assessment (LCA) with scenario forecasting**, explicitly addressing return quality, quantity, and timing uncertainty to overcome the limitations of deterministic, linear LCA logic in circular product lifecycles.
- **Developed and validated a set of dematerialisation indicators and methodological improvements**, enabling more realistic assessment of material efficiency and impact under circular and uncertain operating conditions.

Student Representative, Cardiff University *09/2024 – 09/2025*

- **Vice Chair Student Representative** for a **cohort of 60+ MSc students**. collected and consolidated student feedback, led meetings, and presented findings to faculty to advocate for programme improvements.

Data Analysis Internship, Office for National Statistics (ONS) - Newport, Wales *06/2023 – 09/2023*

- Analysed **10,000+ internal staff development plans** (reports outlining individual learning goals for the year) using **Excel** and **Python** to target learning initiatives by **office location, department, and employment grade**.
- **Built** and **automated** a **Python** script using **150+ keywords**, replacing manual text review and improving the speed and consistency of analysis.
- **Designed interactive dashboards** and **presented findings** in team meetings, clearly communicating results to non-technical stakeholders.
- **Work was formally recognised by a Directorate Head**, who published an internal blog highlighting the project and encouraging staff upskilling.

Other Experiences

Food Delivery Driver, Domino's - *Cardiff, Wales* **08/2022 - 03/2023**

- Operated within fast-paced, time-critical delivery operations across multiple Cardiff locations, coordinating with in-store teams of **20–30 staff** to meet service targets while adhering to strict food safety and allergy procedures.

Customer Service Assistant – Tesco, Cardiff, Wales **8/2022 - 03/2023**

- Supported day-to-day operations within a high-footfall Tesco Express, handling payments, age-restricted transactions, and customer issues while maintaining accuracy, compliance, and service continuity within a small team of **4–6 staff.**

Skills

Operations, Logistics & Supply Chain Understanding

- **Applied lean methodology, process design, inventory control, forecasting, MRP logic and more** across MSc-level coursework, simulations, and case-based analysis of end-to-end supply chains (Examples of work are provided within portfolio, links is at the top of CV).

Data Analysis & Decision Support

- Used **advanced Excel** and **Python** for data cleaning, structured analysis, modelling, and dashboard development in both academic and professional environments.
- Translated complex analysis into clear, decision-relevant insight for non-technical stakeholders.

ERP & Digital Systems Exposure

- **Led and coordinated a team of 5 during an SAP ERP** simulation, covering procurement, inventory management, production planning, distribution, and after-sales support.

Leadership & Collaboration

- Regularly **selected and led group projects** across BSc, MSc, ONS and Live project, coordinating tasks, deadlines, and communication within fast-paced, team-based environments

Work Mindset

- **Maintained a consistent record of delivering work to a high standard within deadlines**
- **Independently developed technical skills, built processes** (Python, Power BI, Excel) to excel beyond expectations.

Personal Interests

Football, weightlifting, reading, astronomy, and flying planes. Fascinated by different cultures and driven by a sense of adventure and continuous self-improvement.
